Tashkent Information
Technologies University named
after Muhammad Al-Khorazmi

2015-2019

PROFILE

I am working as backend developer for 2 years to design, make and develop the structures of web applications across multiple APIs, third-party integrations and databases. Basically, I work on the structure of the application. I use programming languages like PHP, and JavaScript. I am really into passion about developing, releasing, and maintaining large-scale web applications.
